PROJECTS

Weather Application

A simple weather application that allows users to check the current weather and hourly forecast for a specific city. The application is built using HTML, CSS, and JavaScript, and it utilizes the OpenWeatherMap API to fetch weather data.

To-Do List

A simple to-do list built with HTML, CSS, and JavaScript that allows users to add, remove, and mark tasks as complete, providing an interactive and visually appealing way to manage tasks efficiently.

Travel Guide Landing Page

An alluring HTML and CSS landing page for Chikmagalur, encapsulating the beauty of the destination with striking visuals and concise information to spark wanderlust.
